Only two prizes don't follow this pattern – holding a Royal Flush when betting the maximum five coins rewards the player with 4,000 credits, even though the payment for the other four bet sizes progresses the same as all the other hands: 250 for one credit wagers, 500 for two credit wagers, 750 for three credit wagers, and 1,000 for four credit wagers. The jump in value of a Royal Flush at the maximum wager of 5 credits (and the fact that only 5 credit bets are eligible for the game's progressive prize) is justification enough to only play Supajax if you can afford the maximum bet. It is not a secret that a vast bulk of players doubt whether they have correctly done all the calculations. In this respect there is a slight variation from the Kelly Criterion. It is called "Half-Kelly". It does not mean that here you will avoid complicated calculations. The formula remains the same. The only difference is that the "f" number is divided into two. That is it. Thus you bet not the whole number "f" but only its' half. That is why the name "Half-Kelly" is used for this derivation of original Kelly Criterion. New titles are constantly being added to the mix which keeps the casino fresh and most importantly keeps your attention for a length of time so you can make the most of the outstanding rewards program that is on offer. While Fortune Cookie has some interesting design features, it doesn't use a very strong theme. Obviously, the name of the machine suggests that there will be fortune cookies in the game; since this pokie uses the fortune cookie as its wild multiplier symbol, it certainly delivers on that regard.
