We don't usually like the rain but at Schmitts when it rains it rains free spins! Take advantage of THREE thunderous bonuses that can be claimed five times! A blind is nothing more than a required wager. Blinds are used to increase the size of pots. Think of a blind as an extra ante – each game has two of these forced antes per hand. Since blinds rotate among players, an average game (with 9 or 10 players around a table) means each player posts a blind twice every nine or ten hands. Two blinds exist – the big blind and the small blind. A big blind is considered a full-sized bet, while a small blind is always half of the big blind. Since games are always categorized by the size of the blinds, it is important to understand how blinds work. Those signs over the game that say something like “\$5/\$10” are indicators of the size of the blinds; in this example, the small blind is a \$5 bet and the big blind is a \$10 bet. If you aren't a math whiz and you need an easy way of calculating the outs, use Phil Gordon's “rule of 4 and 2” (found in Gordon's The Little Green Book). This rules states that you multiply your outs by one of these numbers to calculate the percentage odds of getting the card you need. If you're on the flop waiting for the turn, multiply your outs by 2. If you're on the turn waiting for the river, also multiply the outs by 2. If you're on the flop waiting for the river—that is, your opponent is all-in—multiply the outs by 4. bsg bingo

As it is obvious from the name, 5 reel slots have 5 vertical rows of game symbols that spin and create winning combinations. The number of these combinations is the first thing that make 5 reel slots stand out as the increased number of reels make it possible to have more possible paylines and thus make these slots more lucrative. The increased number of reels also means that there can be more game symbols and more advanced features can be used. While in classic slots we only had wild and scatter symbols (and sometimes we didn’t have any special symbols at all), free slot games with 5 reels made it possible to create different variations of wild symbols such as stacked or shifting wilds and also use more bonus rounds and mini-games. Another hallmark of 5 reel games is how they look. Modern technologies give more space for graphic and sound effects and that’s why most of the 5 reel games are video slots or 3D slots. While the classic 3 reel games are usually so-called “fruit slots” where the only game symbols are fruits and lucky 7’s, the 5 reel slots have more variety in themes. While playing free 5 reel slots online, you can travel to the Ancient Egypt or Asia, meet wild animals or walk around the creepy haunted house with just a few clicks. Animated symbols and various bonus games make video slots look more like full-fledged video games. They are cool to play when you are an experienced gambler but might be a little bit complicated if it’s your first time playing casino games. So if you are a newbie, you’d better start with simple 5 reel games with no more than 20 paylines and then slowly move to more sophisticated games with advanced features and bonuses.
