You can choose to play from 3 to 50 hands at the same time. Once the game starts, you will be given five cards, these five cards are your base hand and you can choose to hold them or if you want them to re-shuffle to get something better. The main idea of this game is to get the best hand possible by getting the best combination possible. Once you decide which cards you want to hold you will be dealt the second round of cards. The player and the dealer each receive a single card, and whomever has the card of highest value wins. For example: if we receive a Seven and the dealer draws a Nine, the dealer wins; but if we have a King and the dealer has a Jack, we win. The payout for a straight-up victory is 1 to 1 – so if we bet \$10 and win on the first card, we take back \$20.
