A Wild symbol is a special symbol used by many top online slots. This symbol has the unique ability to substitute other symbols to create winning combinations. A simple example would be if you were playing a three-reel slot and the left and right reels landed on a 7, with a Wild in the middle of them. This Wild would become a seven, and you'd win. Most three-reel slots don't feature Wilds though; you're more likely to find them on five-reel slots.
